The Public Works Contract (PWC) The role of Employers Representative

Peter O'Malley
Peter O'Malley Dispute Resolution

Who am I?

Presentation content:

- Commenced studies in Dublin, qualified as an architect and urban designer
- Ex-founding and senior partner of 'LOM architecture and design', an AJ top 100 practice based in London and previously short-listed for AJ Practice of the Year.
- Projects in Europe, Middle-East, West-Africa, Australia and the Caribbean
- Worked in Common law, Civil law and Shariah law jurisdictions
- Various qualifications in Construction Law from Ireland and the UK
- Now primarily involved in dispute avoidance and resolution in Ireland and the UK
- Member of the Ministerial Panel of Adjudicators under the Construction Contracts Act 2013
- Various peer-reviewed papers and articles published on construction law
- Immediate past-chair of the Chartered Institute of Arbitrators (Ciarb) Ireland Branch
- Will take up position as a Trustee for Ciarb worldwide in 2025

The Public Works Contract – The role of Employers Representative (ER)

Presentation content:

- Consider the nature of the client
- The Public Works Contract (PWC)
- Approach to the role
- Overview of the ER role
- The powers and duties of the ER as set out in the PWC
- The Tender and Schedule limitations on authority
- Conditions of Engagement COE1
- A role with two hats Administrative
- A role with two hats Determinative
- Common issues
- Key takeaways

Consider the nature of the client

- Will often be formed by a committee within a state or semi-state organisation, agency or public authority with accountability to a Government Department.
- Will have a high aversion to risk or taking immediate decisions often with limited or no autonomy to make commercial decisions.
- Decisions will usually necessitate consultation with a range of stakeholders and will often be protracted.
- The committee, which can be organisationally complex, may only be in place for the project.
- Committee members often lack experience in the construction process and will rarely have an extensive knowledge of the PWC Contract.
- The project will not be a career priority and there will be discomfort with adversarial situations.

The Public Works Contract (PWC)

The guiding principles which underpin the Public Works Contract are:

- To ensure as far as practicable that the accepted tender prices and the final outturn costs are the same; and
- To allocate risk so that there is optimal transfer of risk to the Contractor – There is a considerable body of opinion that believes there is an excessive transfer of risk away from the Employer.
- The PWC is an evolving contract with numerous past amendments.
- Check the version current issue is PW-CF1 v.2.8 1 May 2024.
- Conditions extend to 61 pages and the Schedule to 29 pages, compared to the RIAI Blue form which is 50 pages.
- It is prescriptive and complex in several sections, clause 9.4.3 Programme Contingency and clause 15 Price Variation as examples.
- Although the ER is not a party to the contract, the role is considered to be a 'creature of the contract' where the intention is that the parties are bound by the orders and decisions of the ER.

PUBLIC WORKS CONTRACT FOR BUILDING WORKS DESIGNED BY THE EMPLOYER

THE EMPLOYER

Office of Government Procurement

Approach to the role

- The role of the Employers Representative in the Public Works Contract (PWC) requires a change of 'mind set' from that of the Design Architect.
- The Public Works Contract requires an organised approach to management and record keeping to fulfil the obligations of administering of the contract.
- The role requires that you treat both parties evenhandedly, in a fair minded and unbiased manner.
- The role also requires an anticipatory approach to identifying issues that could escalate to become disputes remember that as the ER you have the opportunity to resolve issues before they get out of control.
- There are often conflicting pressures between the Employer and Contractor, you should not yield to pressure from either.

Overview of the ER role

The Employer's Representative (ER) is a person appointed to administer the Contract on behalf of the Employer to:

- Represent the Employer's interests.
- In most cases this is the same person who acts as Design Team Leader / Lead Consultant during the Design Stage.
- The ER can be appointed from within the Employer's organisation; or the role may be filled by a consultant architect, engineer, surveyor or other person capable of carrying out the required responsibilities.
- The ER is the person primarily responsible for liaison with the Contractor. Client requested changes are not permitted (whether within the ER's authority or not) without prior Department authorisation.
- The limits of the ER's authority are stated in Part 1A of the schedule to the PWC Contract CF-1.

The powers and duties of the ER as set out in the PWC

Clause	Powers	Duties
1.1	Issue Change Order including imposition or removal of constraints on how the Works are to be executed.	
1.1	Determine that the Contactor has reasonable grounds for not rectifying minor defects.	
4.1.3	Request clarifications, consultations, workshops, exchange of information or expertise.	
4.2.3	Request removal of the Contractor's Representative or Supervisor for misconduct, negligence or incompetence.	
4.3.2	Issue instructions outside of limitations stated in Schedule Part I	
4.3.3	Delegate authority to named representatives.	Notify the Contractor of such delegation and any changes to the delegation.
4.4.1	Give the Contractor instructions, directions, change orders or make objections.	
4.4.2	Give the Contractor and Employer opinions, assessments, determinations, certificates and other communications the Employer's Representative considers appropriate.	
4.5.2 & Clause 10		Determine whether or not an instruction is a change order.
4.5.3		Not give a change order to do work after Substantial Completion except in the case of defects or work that was to be done after Substantial Completion.

Conditions of Engagement – COE1

- The Conditions of Engagement is a standard form, current version is COE-1 v-2i.
- Consider your obligations in the COE carefully, e.g. Clause 5, Prolongation: "Neither party is liable to the other for delay due to Special circumstances not due to its own breach of this Contract. Special circumstances are – war, hostilities, civil commotion; industrial disputes; delay to the Project construction contract."
- Also be aware of additional provisions:

"The Design Team (individually and collectively) are responsible for any change orders arising from incomplete design and/or inadequate detailing (the standard required is that of reasonable skill and care) which either generate a compensation event and/or cause delays.

For design where the standard of reasonable skill and care was not applied, the Client reserves the right to recoup such costs (including consequential costs arising from such delays) from the Design Team and/or their Professional Indemnity insurance."

A role with two hats - Administrative

The Employer's Representative (ER) has a dual responsibility - acting for the employer and making decisions between the Employer and the Contractor, administration includes:

- Monitoring the progress of the works in respect of:
 - Construction programme.
 - Quality matters.
 - Compliance with Works Requirements.
 - Compliance with Statutory Consents.
- Notifying of changes to delegation, clause 4.3.3
- Issuing instructions in the form of Directions or Change Orders, clauses 4.5.2 and 10.
- Confirming verbal instructions in writing, clause 4.5.5.
- Scheduling and chairing meetings, clause 4.15.1.
- Issuing meeting minutes within 5 working days, clause 5.15.2.
- Notifying amount of programme contingency, clause 9.4.6.

A role with two hats - Determinative

On various important matters the ER is required to 'exercise judgment in a fair and unbiased manner,' despite being in the employ of the Employer.

- Considering changes to works proposals, clause 4.6.2.
- Issuing of Certificates.
 - Interim payments.
 - Defects, clause 8.7.
 - Substantial Completion, clause 9.6.2.
 - Notice of taking over part of the works, clause 9.7.
 - Penultimate interim payment, clause 11.5.
 - Final payment, clause 11.5.
 - Determining termination amount, clause 12.2.
- Determining any extension of time for a Delay event, clauses 9.3, 10.5 and Schedule Part 1K.
- Determining adjustment to the Contract sum for a Compensation event, clause 10.5, Schedule Part 1K.
- Determining Employers claims, clause 10.9.

Common issues

- Lack of appreciation of the management time required to correctly administer the Public Works Contract.
- Insufficient familiarity with some of the most important clauses.
 - Clause 4, Management
 - Clause 8, Quality, Testing and Defects
 - Clause 9, Time and Completion
 - Clause 10, Claims and Adjustments
 - Clause 11, Payment
- Inadequate record keeping.
- Remaining design work not being timely developed.
- Lack of understanding of wider obligations.
- Being overwhelmed, don't put your head in the sand.
- Lack of early addressing of problems, not reporting.
- Diminished fee resource, can only get worse.
- Office pressure to move on to other projects.

Key Takeaways

1: The Public Works Contract, and its associated documents, give rise to extensive obligations.

2: The Public Works Contract is demanding to correctly administer.

3: Take the necessary time at the start to fully review and understand the contract documents.

4: The client body is likely to demand and approach of involved and proactive management.

5: You need to start as you mean to continue, it needs a change of 'mind set' as an architect.

6: Always be vigilant to any early signs of difficulty and be proactive in reporting and resolving.
